醫療科技不斷進步，新的醫療技術不僅可為病人帶來痊癒的希望，更可改善治療過程，減輕病人痛楚，但嶄新的醫療技術所費高昂，導致醫療費用不斷上升。因此，可信賴的醫療保障及危疾保障確實缺一不可。

醫療費用不斷攀升

新的醫療技術令醫療費用愈趨昂貴，加上通貨膨脹日漸加劇，導致藥物價格上升，以至醫生費及手術費用亦需相應調高。私家醫院的床位緊張，亦引致近年的住院費用急速上漲，令市民在醫療開支上的負擔日益沉重。

門診手術 安全省時

幸而受惠於醫療科技的發展，不少診所現已設有合適的醫療設備，現時進行門診小型手術的安全程度已足可媲美醫院。在診所進行小型手術不單省時方便，更可減省非必要的住院留宿，免卻入院出院的繁複手續；而且門診手術的醫療費用比較相宜，可減輕病人的經濟負擔之餘，亦可有效紓緩醫療保險索償的壓力，讓客戶與保險公司達至雙贏。

根據友邦保險2014年內部參考資料顯示，上消化腸道內窺鏡檢查、大腸內窺鏡檢查及白內障摘除手術是現時最普遍的門診手術：

門診手術省時省費			
手術名稱	住院手術費用*	門診手術費用*	門診手術程序時間
上消化腸道內窺鏡檢查	22,000港元	5,500港元	約15至35分鐘
大腸內窺鏡檢查	21,000港元	7,700港元	約20至30分鐘
白內障摘除手術	34,000港元	22,000港元	約20至30分鐘

優質醫療網絡 額外保障

特級「健康之寶」2帶給您全面可靠的醫療及住院保障，除了提供自選醫生醫療保障，更不斷優化醫療網絡服務，納入更多不同專科醫生，全面提升保障範圍。AIA精心挑選的網絡專科醫生均經過嚴格篩選，擁有相關履歷及經驗，為您提供專業的住院及門診手術服務。而且憑**特級「健康之寶」**電子網絡卡接受網絡醫療服務可獲得以下優越待遇：

- 於香港接受網絡門診手術可享用「免找數服務」^{1,2}，受保項目包括：
 - ▶ 門診手術費用，包括直接在門診手術進行時需使用之藥物及顯影服務³
 - ▶ 於網絡診所進行醫療所需的診斷測試或程序 **新增**
 - ▶ 手術前、後各一次的門診醫生診症費用 **新增**
- 醫療網絡住院專享的保障項目，包括
 - ▶ 住院專科醫生費用
 - ▶ 住院陪床惠益
 - ▶ 普通房計劃的脊椎／物理治療師費用及手術後每日家中看護費用賠償⁴
 - ▶ 手術前、後的門診醫生診症費用
- 比自選醫生較高的賠償上限
- 比自選醫生較高的額外醫療保障賠償百分比
- 以門診病人身份接受手術無損無索償獎金⁵

小貼士

特級「健康之寶」2備有3種保障計劃以供選擇，包括普通房計劃、半私家房計劃及標準私家房計劃。我們建議客戶應儘量入住與所選計劃相對的病房級別。當入住的病房級別高於所選計劃的病房級別時，額外醫療保障賠償的百分比會因保單設有「調整基數」條款而受影響。詳情請參閱保單契約。

1. 在進行門診手術前，網絡診所會直接向AIA為受保人的門診手術費用作出預先核準申請；而AIA將會直接向網絡診所支付已獲批核的門診手術費用，並以有關保障之賠償額為限。如有關的門診手術出現差額費用，AIA將向保單持有人收取該等差額。
2. 此項目並非保單保障內容，本公司有權隨時撤銷該等服務而毋須另行通知，並保留絕對決定權。
3. 直接在門診手術進行時需使用之藥物及顯影服務將計算在有關住院計劃中的住院雜費賠償額內，以適用的保障限額為上限。
4. 此保障項目亦適用於半私家房計劃及標準私家房計劃的網絡及非網絡服務。
5. 若於有關保單年度內，曾於非網絡診所或醫院內接受手術並成功索償，則不符合獲取無索償獎金的資格。

As medical technology evolves, new advances in medical technology can bring hope to patients by improving treatment and easing patients’ pain. However, the relatively high cost of adopting new medical technology leads to high medical charges. Therefore, having reliable medical protection plans and critical illness protection plans are essential for everyone.

Swift increase in medical service costs

New advances in medical technology cause medical service costs to increase. With inflation, the price of medication as well as doctors’ and surgical fees increase. The shortage of hospital beds in private hospitals also leads to rising medical service costs, which impose a considerable financial burden on patients.

Outpatient surgery: safe and time-saving

Fortunately and thanks to advances in medical technology, many clinics are equipped with appropriate medical facilities for outpatient surgery. Now, minor surgeries carried out in clinics are as safe as those carried out in hospitals. Minor surgeries in clinics can save more time and be more convenient to carry out than those performed in hospitals, reducing unnecessary hospitalisation and complex hospitalisation procedures. Lower surgical costs can reduce patients’ financial burden. At the same time, clinical procedures can also ease the pressure of medical claims. This leads to a “win-win” situation for both customers and insurance companies.

According to AIA’s 2014 internal reference data, upper GI endoscopy, colonoscopy and cataract extraction are currently the most common outpatient surgeries:

Outpatient surgeries are time-saving and money-saving			
Surgery	Inpatient surgery cost*	Outpatient surgery cost*	Duration of outpatient surgery
Upper GI endoscopy	HK\$22,000	HK\$5,500	About 15 to 35 minutes
Colonoscopy	HK\$21,000	HK\$7,700	About 20 to 30 minutes
Cataract extraction	HK\$34,000	HK\$22,000	About 20 to 30 minutes

Quality medical network with extended coverage

Super Good Health 2 offers you comprehensive and reliable medical and hospital protection. Apart from retaining the freedom to choose a doctor, you can consult with one of the many experienced doctors within our medical network. We carefully selected specialists across a host of medical disciplines, enhance our medical network and expanded the network's coverage. Each medical professional has been thoroughly screened, and all possess years of relevant experience and proper medical qualifications, ensuring that you have safe and reliable services. By receiving network medical services with your electronic **Super Good Health** Network Card, you can enjoy the following privileges:

- Cashless arrangement^{1,2} for network outpatient surgeries performed in Hong Kong, covering the following expenses:
 - ▶ Outpatient surgical fees including medication / imaging services directly used during outpatient surgery³
 - ▶ Medically necessary diagnostic tests or procedures performed in network clinic **NEW**
 - ▶ 1 pre- / 1 post-surgery outpatient consultation fees **NEW**
- Exclusive inpatient Network Benefits items, including:
 - ▶ Hospital specialist's fees
 - ▶ Hospital companion bed benefit
 - ▶ Chiropractor / physiotherapist consultation and daily post-surgery home nursing benefits for the Ward Plan⁴
 - ▶ Pre- / Post-surgery outpatient consultation fees
- Higher maximum benefit limits at our medical network clinics than with non-network doctors
- Higher reimbursement percentage towards Supplemental Major Medical (SMM) than Non-network Benefits
- Your No Claim Bonus⁵ will not be affected if you receive surgery as an outpatient

Tips

Super Good Health 2 offers three options of room type: Ward Plan, Semi-Private Plan and Standard Private Plan. We suggest you strive to confine your choices only to the room types that correspond with your plan level. Otherwise, the reimbursement percentage towards the Supplemental Major Medical (SMM) Benefits will be affected according to the "Adjustment Factor" clause as stipulated in the Policy contract. For details, please refer to the Policy contract.

1. Prior to the surgery, the Network Clinic will submit a Prior-Authorisation Request to AIA directly for the Clinical Surgery charge of the Insured and will bill AIA directly for payment of covered charges for the approved surgery up to the applicable coverage limit. In case there is a shortfall for the surgery, AIA will recover the shortfall from the Policy Owner.
2. These items are additional services provided under Panel Network Services, but not contractual services, offered in our absolute discretion and are subject to termination at any time without prior notice.
3. Expenses for imaging services / medication directly being used during outpatient surgery will be covered under the Miscellaneous Hospital Expenses Benefit of the relevant hospitalisation plan up to the applicable coverage limit.
4. For the plans of Semi-Private and Standard Private, these benefit items is offered under Network Benefit and Non-Network Benefit.
5. You will not be entitled to the No Claim Bonus if you have received reimbursement for surgical procedures done at non-network clinics or hospitals during the relevant Policy Years.
