保證受保^{#1} 定額保費

本計劃提供劃一保費予所有符合投保年齡要求的客戶，而且保證受保^{#1}，毋須健康審查。此外，保費保證於保費繳付年期內維持不變，讓您的財務安排更有預算。

身故賠償

若受保人不幸於第二個保單週年日前身故，我們會支付「已付保費總和」^{#4}的101%，加上任何累積紅利予受益人。如受保人身故於第二個保單週年日當日或其後，則受益人會獲得相等於「已付保費總和」^{#4}的110%或保證現金價值（以較高者為準），加上任何累積紅利作為身故賠償。保額與身故賠償並無關係，我們不會於受保人身故時支付此保額。

失業延繳保費惠益

若保單持有人非自願性失業^{#5}，「失業延繳保費惠益」會將保費繳付寬限期由未繳交保費的保費到期日後的31日延長至365日，讓您籌措有關費用。但若保單的自動保費貸款^{#6}條文已被動用，則「失業延繳保費惠益」將會豁免貸款利息^{#7}，以365日為限；此惠益將會在保費繳付年期完結後終止。

#1 個人投保金額上限最高為1,000,000美元。

#2 當保單期滿，保單持有人將可獲得基本保額，而預期全期回報率可達4.56%。回報率乃根據40歲男性投保「簡易特級高息保15年儲蓄計劃」，保額是20,000美元，以計劃於第15年期滿時預期的現金總值和「已付保費總和」計算。預期現金總值包括預期週年積存紅利及期滿紅利，並根據本公司現時釐訂的息率（現行為每年4%）積存，而紅利及息率均非保證。

#3 預期非保證現金價值包括積存週年紅利（現行積存息率為每年4%）及期滿紅利，而紅利及息率均非保證。實際的週年紅利及期滿紅利或會比所列出的較高或較低。當投資市場變得波動而投資年期較短，調整紅利的機會將變得較高。

#4 基本保單的「已付保費總和」是指相等於「適用標準保費」乘以「已付保費的年數」而得出的金額。「適用標準保費」是指以刊載於保單契約標準保費表內的適用每年標準保費率所計算的金額。若您並非以年繳方式繳付保費，「已付保費總和」或不會相等於您已繳付的保費。

#5 保單持有人必須連續不少於24個月受僱於同一僱主，並符合資格按香港或澳門（視屬何情況而定）僱傭或勞工法例追討遣散費。此惠益由失業期開始後的保費到期日起計，以365日為限。保單持有人必須向本公司提供持續失業證明。

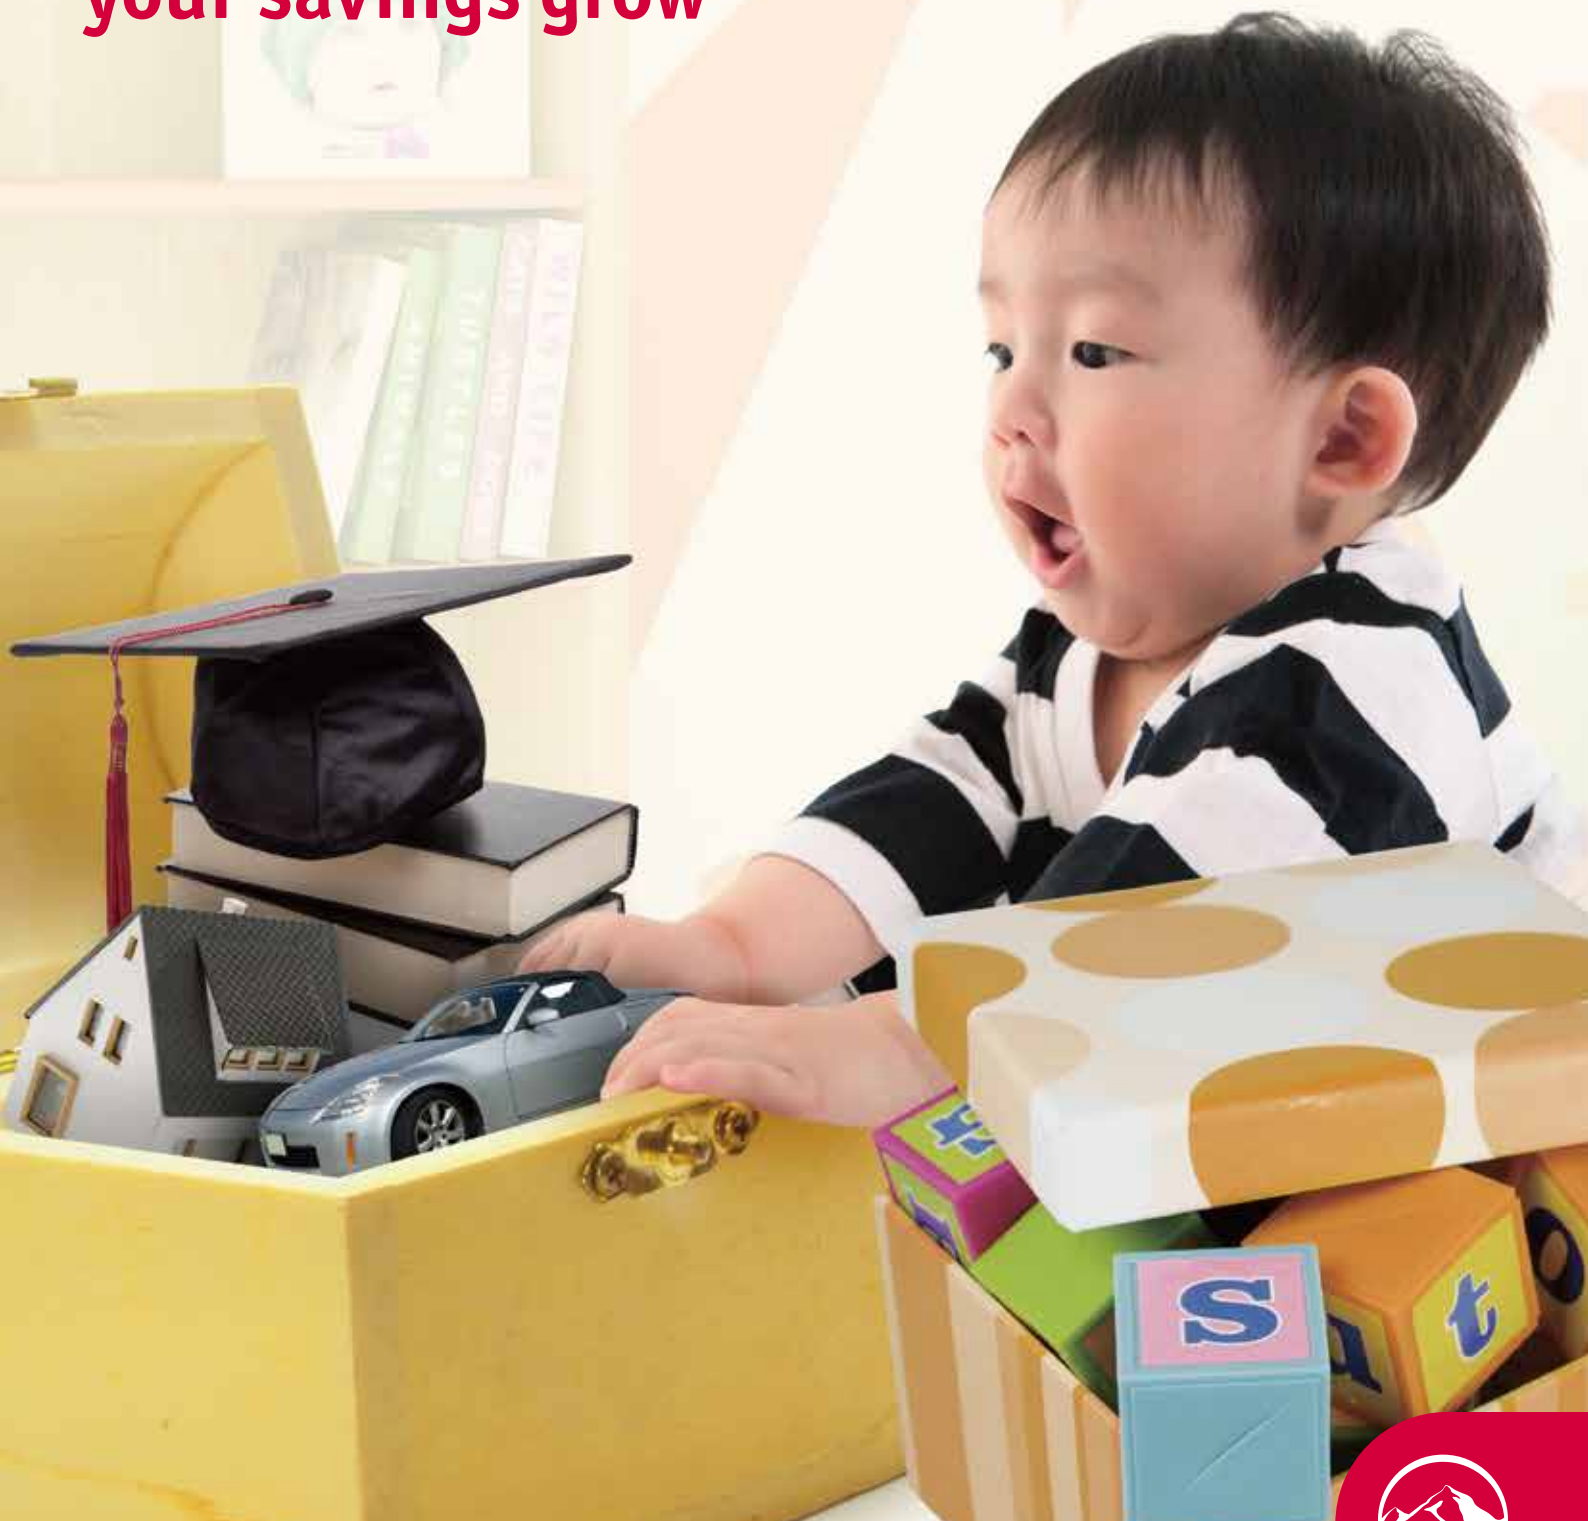

#6 「自動保費貸款」是指本公司自動作出的貸款以繳付31天寬限期完結後保單仍有逾期未付的保費，及其後的保費到期日到期未付之保費，惟當時保單內的現金價值及任何累積週年紅利的總和必須足以支付逾期未付之保費加上一切保單欠款的金額。本公司會就該貸款收取利息。

#7 就「失業延繳保費惠益」而言，貸款利息是指因動用「自動保費貸款」來繳付在失業期間到期未付之保費而須支付的利息。

Guaranteed Acceptance^{#1} and Fixed Premium

The same premium rate is offered to all customers within the specified issue age range. Moreover, acceptance of your application is guaranteed^{#1} and no medical examination is required. Premiums remain fixed throughout the premium payment period allowing for easy financial management.

Death Benefit

In the unfortunate event that the Insured dies before the 2nd Policy Anniversary, we will pay 101% of Total Premiums Paid^{#4}, plus any Dividend Accumulations, to the Beneficiary. If the Insured dies on or after the 2nd Policy Anniversary, the beneficiary will receive 110% of Total Premiums Paid^{#4} or guaranteed Cash Value (whichever is higher), plus any Dividend Accumulations, as the death benefit. The Face Amount is not related to death benefit, and will not be paid on the death of the Insured.

Unemployment Benefit

If the policyholder becomes Involuntarily Unemployed^{#5}, we will extend the Grace Period for late premium payment from 31 days to 365 days from the due date of the premium in default to give you an increased buffer for such payment. However, if the Automatic Premium Loan^{#6} provisions of the Policy have been triggered, the Unemployment Benefit becomes a waiver of loan interest^{#7} for up to 365 days instead. This benefit will cease at the end of the premium payment period.

#1 The maximum issue amount is limited to US\$1,000,000 per life.

#2 At maturity, the policyholder will receive the Face Amount with a total projected yield of up to 4.56% p.a. This yield is calculated based on the projected total Cash Value and Total Premiums Paid as at the end of the 15th year for the case of a male, age 40, with Special Target Saver Plus, a 15-year target savings period and a Face Amount of US\$20,000. The projected total Cash Value includes projected accumulated annual dividends and maturity dividend, accumulated at the current interest rate determined by the Company (currently 4% p.a.). Dividends and the applicable interest rate are not guaranteed.

#3 The projected non-guaranteed cash value includes accumulated annual dividends (currently accumulated at 4% p.a.) and maturity dividend. Dividends and the applicable interest rate are not guaranteed. Actual annual dividends and maturity dividend paid may be higher or lower than those illustrated. The chances of dividend adjustment are higher if the investment market is volatile and the investment is over a shorter term.

#4 Total Premiums Paid means an amount equal to the Applicable Standard Premium multiplied by the Number of Years of Premium Paid. Applicable Standard Premium is the premium amount based on the applicable standard premium rate as shown in the Table of Standard Premium in the Policy contract. Total Premiums Paid may not be equivalent to the premiums that you have paid if your payment is not made on an annual basis.

#5 The policyholder must have been employed under a continuous contract for not less than 24 months and be eligible for a severance payment upon termination under the laws of Hong Kong or Macau (as the case may be). The Unemployment Benefit starts on the premium due date following the commencement of unemployment and continues for up to 365 days. Proof of continuous unemployment is required.

#6 Automatic Premium Loan means the loan which is automatically advanced under the Policy to pay any unpaid premium as at the end of the 31-day Grace Period and on subsequent premium due date(s) thereafter, provided the sum of the Cash Value in the Policy and any accumulated annual dividends is sufficient to cover the premium in default plus any Policy Debt. Interest is charged on Automatic Premium Loans.

#7 "Loan interest" for purposes of the Unemployment Benefit means the interest that would otherwise have been charged on the Automatic Premium Loan(s) advanced for premium(s) falling due during the unemployment period.
