III. 銷售故事

個案 1 – 開展人生另一頁

陳先生是裁縫，今年 60 歲，正打算於 65 歲退休，結束生意，並計劃退休後開班授徒，讓自己的一門手藝得以相傳下去。

陳先生希望實現這一個畢生夢想，於是他投保了「活出精彩」入息計劃：

- 年繳保費 43,630 美元，保費繳付期為 5 年，總保費為 218,150 美元，選擇固定方式[7]派發入息
- 保費繳付期完結後，於每個保單週年日獲派發每年入息[8] 20,000 美元直至 15 年入息期完結，入息總和為 302,164 美元，**即 139%的已繳付保費**

「活出精彩」入息計劃幫到你！本計劃可讓陳先生於短期內便可提取現金，按自己的需要，靈活運用。而派發每年入息 [8] 更讓自己於退休後能繼續「有收入」，無需顧慮，安心實現夢想。

個案 2 – 把愛承傳下去

王女士年屆 60，已退休，閒時弄孫為樂。王女士希望為孫兒預留一筆資金作留學之用，於是投保了「活出精彩」入息計劃供款 3 年，選擇遞增方式 [7] 派發入息，年繳保費為 30,000 美元，並打算把每年入息 [8] 積存於保單內。於保單期滿時，預期累積入息總和[9]可達 160,002 美元，**即 178%的已繳付保費**。

另外，王女士亦為孫兒作好悉心安排，選擇把其身故賠償按年派發予受益人。若她於入息期期內不幸身故，本計劃的身故賠償會以王女士生前的選擇按年支付予受益人至入息期完結。每年送上一點心意，把自己對孫兒的祝福於百年歸老後能延續下去。

「活出精彩」入息計劃幫到你！本計劃可讓王女士的財富按自己的意願承傳，靈活安排可讓受益人以適合的方式收取該身故賠償，為摯愛再盡一點心意。

[7] 固定方式於入息期內收取劃一的保證每年入息。遞增方式於入息期內收取之保證每年入息將按年增加。

[8] 「每年入息」包括保證每年入息及非保證週年紅利。

[9] 「預期累積入息總和」相等於「累積保證每年入息總額」及「累積非保證週年紅利」之總和。以上的例子假設根據現行之紅利率及 4.0%非保證美元積存息率計算，紅利率及積存息率均並非保證，確實的週年紅利及積存息率於保單年期內可能有所變動，並可能多於或少於上述例子所列之金額。以上的例子假設整個保單年期內沒有任何保單貸款，並且假設所有保費於到期時已被全數繳付。

個案 3 -「活出精彩」小棋盤

郭太為 10 歲的兒子投保了「活出精彩」入息計劃，希望每年能有靈活現金給郭小朋友用作發展個人潛能及體驗生活。

保費繳付期為 3 年，可於入息期開始前 6 個月內考慮延長或縮短入息期[10]一次。但郭太認為 15 年入息期相當合適，並按原定計劃實行 15 年大計。

「活出精彩」入息計劃幫到你！計劃可讓郭太為兒子於求學階段的財政支援作最佳準備！

[10] 受保人可在保費繳付期完結後提取保證每年入息直至入息期完結為止。預設入息期為 15 年，保單持有人可在入息期開始前的 6 個月內，按當時本公司所提供的選擇，選擇延長或縮短入息期一次 (例如 10 年、20 年或 30 年) 。所有入息期內的保證及非保證保單價值會因應該選擇的入息期而調整。

IV. 營業員佣金

保費繳付期	保單年度 / 佣金		
	1	2	3 – 5
3 年	8%	1%	1% (只適用於第 3 年)
5 年	13%	1%	1%

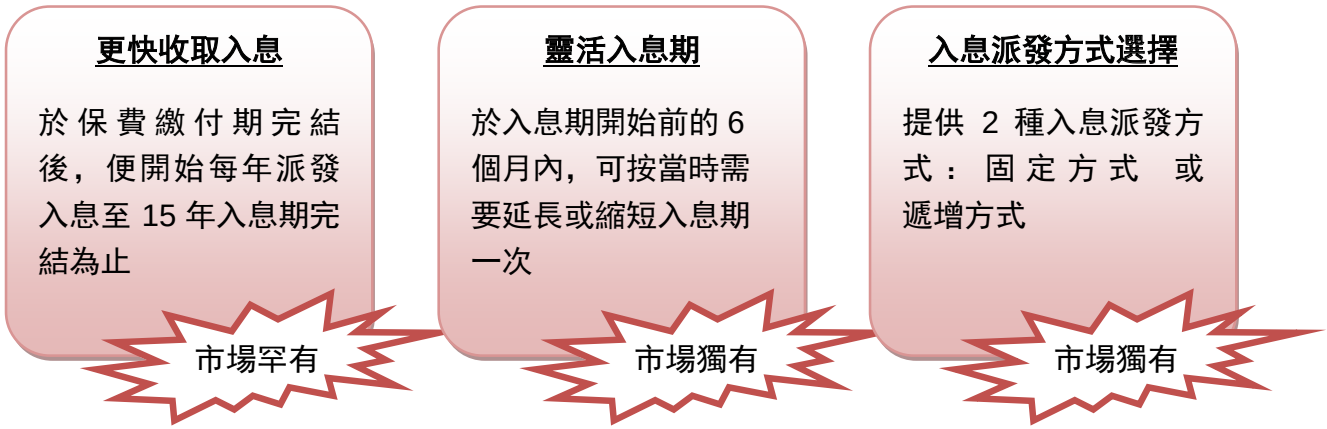

若受保人為 65 歲以上， 3 年繳付期及 5 年繳付期的首年佣金分別就投保年齡每加大一歲減 0.2%或 0.5%。

有關佣金之詳情，請參閱**附錄一之 F 部份**。

2 問 **保證每年入息會於何時開始派發？客戶每年會於什麼時候收到？**

答 「首次支付保證每年入息日期」及「入息期」均列印於保單資料頁上。保證每年入息會於入息期開始及期內的保單週年日派發，直至保單年度完結為止。

例子（以月繳保費 / 3 年保費繳付期 / 15 年入息期為例）：

假設保單日期：2013 年 1 月 18 日

例子（以年繳保費 / 5 年保費繳付期 / 15 年入息期為例）：

假設保單日期：2013 年 1 月 18 日

3 問 **保證每年入息會以什麼形式支付予客戶？**

答 保證每年入息會預設於保單內積存生息。但客戶亦可選擇每年支取，我們將會以支票（按保單貨幣）支付保證每年入息。而公司現積極考慮其他支付方式。

4 問 **為什麼入息期只可於入息期開始前 6 個月內才可更改？客戶要如何提出有關更改？**

答 提供入息期可更改選擇是讓客戶可更具彈性，在入息期開始前再次檢討自己的財務狀況及需要，從而考慮是否需要延長或縮短入息期，並根據當時本公司所提供之選擇（如 10 年、20 年、30 年）更改一次。所有入息期內的保證及非保證保單價值會因應該選擇的入息期而調整。

公司會不時檢討產品的投資回報等的長期假設從而確保客戶的利益。由於到時的投資環境與保單繕發時可能有所不同，為提供更清晰的預期的回報給客戶，我們才會於入息期開始前6個月發信提醒客戶可更改的選擇。

而有關不同入息期的利益說明，客戶可於入息期開始前 6 個月，透過營業代表 (於營業員專頁 (Agency Corner) => PES) 索取。有關細節，將於日後公布。

若客戶未有於入息期前提出更改申請及獲得接納，我們將以原定的入息期（即 15 年）派發保證每年入息。入息期一旦開始，客戶將不可再作入息期更改。

5 問 **「活出精彩」入息計劃的身故賠償是什麼？**

答

	保費繳付期內	**入息期內**
身故賠償	(i) 已付保費總和[12]，加 (ii) 累積週年紅利(非保證) *減* 保單貸款(如有)	**<u>一筆過支付：</u>** (i) 將來未付的保證每年入息，加 (ii) 累積的保證每年入息，加 (iii) 累積週年紅利(非保證)，加 (iv) 期滿紅利(非保證) *減* 保單貸款(如有) **<u>持續支付每年入息：</u>** • 於受保人身故後，繼續每年支付將來未付的保證每年入息及任何週年紅利予受益人至入息期完結 • 而任何受保人在生時累積的保證每年入息及週年紅利(非保證)會於受保人身故時以一筆過支付予受益人 • 須扣除保單貸款(如有)
意外身故賠償	額外支付 100%已付保費總和 [12]	

6 問 **保單持有人於受保人生前將週年紅利及保證每年入息儲存於保單內，但又選擇了以持續支付每年入息來支付身故賠償，那身故賠償會怎樣支付？**

答 在保單內累積的週年紅利及累積的保證每年入息會於索償身故賠償時以一筆過支付予受益人。隨後未付的保證每年入息及週年紅利將按年支付予受益人，直至入息期完結。

[12] 已付保費總和乃假設保費以年繳形式繳付。倘若受保人於保費繳付期內因意外身故，受益人可額外獲得 100%的「已繳保費總和」。惟根據本公司當時的規則及規例，由本公司繕發的指定意外身故賠償的總賠償金額不得超過 1,000,000 美元/ 7,500,000 港元/澳門幣 (以每位受保人計算)。

7 問 **客戶選擇於入息期內一筆過支付或持續支付每年入息作身故賠償會怎樣支付？**

答 若受保人於入息期內不幸身故，我們會按保單持有人於受保人在生時所選的支付方法支付身故賠償。各支付方法的金額計算可參考以下例子[13]：

基本保單:	「活出精彩」入息計劃 (3年繳費 遞增派發)		
受保人姓名:	SAMPLE	年齡/性別:	40/女
每月保費:	美元$2,119.20

17年	6,271	2,861	128,002	0	0	128,002	72,000	128,002

假設於第 10 個保單週年身故:

一筆過支付：

於第 10 個保單年度的身故賠償總額

= 未支付的保證每年入息金額 + 累積每年入息[14]總額(即累積入息總額) + 期滿紅利(非保證)

= ($5,476+ $5,608 + $5,741 + $5,873 + $6,006 + $6,138 + $6,271) + $50,907 + $5,544

= $97,564

持續支付每年入息：

於受保人身故時，累積入息總額將一筆過支付予受益人

= $50,907

於受保人身故後，繼續每年支付未付的保證每年入息及任何週年紅利至入息期完結。總金額如下

= ($5,476+$1,176) + ($5,608+$1,363) + ($5,741+$1,582) + ($5,873+$1,834) + ($6,006+$2,126)
+ ($6,138+$2,467) + ($6,271+$2,861)

= $54,522

[13] 以上的例子假設根據現行之紅利率及 4.0%非保證美元積存息率計算，紅利率及積存息率均並非保證，確實的週年紅利及積存息率於保單年期內可能有所變動，並可能多於或少於上述例子所列之金額。以上的例子假設整個保單年期內沒有任何保單貸款，並且假設所有保費於到期時已被全數繳付。

[14] 「每年入息」包括保證每年入息及非保證週年紅利。

8 問 **客戶於投保時已選擇其中一種身故賠償支付辦法，可以更改嗎？在什麼時候更改？**

答 可以，於受保人在生時，保單持有人仍可更改身故賠償支付辦法，並獲得我們已接納及記錄，我們將按照該指示處理該身故賠償。而受保人一旦身故，保單持有人及受益人均不可更改身故賠償支付辦法。

9 問 **「活出精彩」入息計劃的保費會因投保年齡及性別而有所不同嗎？**

答 不會，本計劃是按投保人所選的每年保費金額來釐訂保證每年入息之金額，而且是劃一的，不受年齡及性別所影響。

10 問 **為什麼期滿紅利於保單期滿時會減至零？**

答 本計劃的特色是提供保證每年入息及非保證週年紅利，而該已派發的入息金額會令保單可用於投資的資產減少，因此，保證現金價值及期滿紅利會隨著用於投資的資產減少，而於入息期內逐步減少直至保單完結時為零。

11 問 **本計劃可銷售給抵港/抵澳內地人士？**

答 可以。

12 問 **本計劃可以作保單貸款嗎？**

答 可以，但只適用於保費繳付期內。

2 Q **When will Guaranteed Annual Income starts to be paid? When will the customers receive them every year?**

A •First Guaranteed Annual Income Payment DateŽ and •Income PeriodŽ are printedon the Policy Information Page. Guaranteed Annual Income starts to be paid on the Policy Anniversary from the commencement of Income Period until the end of policy term.

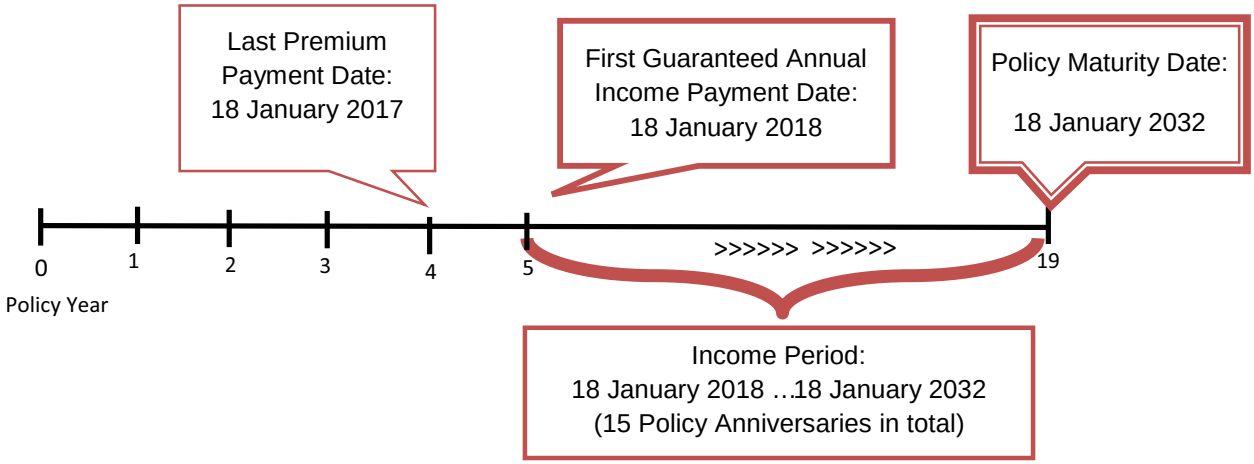

Example（Monthly Mode / 3-Pay / 15-year Income Period）:

Assume Policy Date: 18 January 2013

Example（Annual Mode / 5-Pay / 15-year Income Period）:

Assume Policy Date: 18 January 2013

3 Q **How is Guaranteed Annual Income paid to customer?**

A Guaranteed Annual Income is defaulted to accumulate interest. However, customer can also opt to withdraw annually and the income will be paid in cheque (according to the policy currency). Our company is currently considering other payment method.

4 Q **Why can the income period be changed only within 6 months before the commencement of income period? How can customers change the income period?**

A Availability to change income period is to provide more flexibility which allows customers to evaluate their financial condition and needs again, to extend or shorten the income period once with the choices available (e.g. 10 years, 20 years or 30 years) at the moment of change. All subsequent guaranteed and non-guaranteed Policy values will be adjusted according to your choice of Income Period.

Company reviews long term assumptions of our products from time to time in order to protect the customers• interest. Since the investment environment may be different at the time of policy issued, we decided to provide clearer illustration with expected return for customers. Letters will be sent to remind customers within 6 months before the commencement of income period.

For the illustration of different income period, from the 6 months before the commencement of income period, customers can get the illustrations via agents (print from Agency Corner → PES). We will announce the further details in due course.

If customers do not reply, we will pay the Guaranteed Annual Income based on original income period (i.e. 15 years). Once income period starts, customers can no longer change the income period.

5Q **What is the death benefit of Spring Income Plan?**

A

	During Premium Term	During Income Period
Death Benefit	(i) Total Premium Paid[12], plus (ii) Annual Dividend Accumulation(non-guaranteed) *minus* Policy Debt (if any)	**Lump Sum Payment:** (i) Future unpaid Guaranteed Annual Income, plus (ii) Guaranteed Annual Income Accumulation, plus (iii) Annual Dividend Accumulations(Non-guaranteed), plus (iv) Maturity Dividend (Non-guaranteed) *minus* Policy Debt (if any) **Annual Income Continuity:** • From the Insured•s death, continue to pay any unpaid Guaranteed Annual Income and any annual dividends on each policy anniversary to the Beneficiary until the end of the Income Period • Upon the Insured•s death, any Guaranteed Annual Income accumulation and Annual Dividend accumulation (non-guaranteed) during insured•s life time will be paid in a lump sum to the Beneficiary • must minus policy debt (if any)
Accidental Death Benefit	Extra payment of 100%Total Premium Paid[12]	

6 Q **If the policy owner accumulate the non-guaranteed Annual Dividends and Guaranteed Annual Income in our company during the Insured's lifetime but choose the "Annual Income Continuity" option as death benefit payout option, how is the death benefit be paid?**

A Upon the death claim made, the beneficiary (ies) will receive a lump sum of Annual Dividends accumulations and Guaranteed Annual Income accumulations in the policy. Afterwards, the unpaid Guaranteed Annual Income and Annual Dividends will be paid annually to the beneficiary until the end of the income period.

[12] The amount of total premium shown assumes that premiums are paid on an annual basis. If the Insured dies due to an accident within the premium payment period, the Beneficiary will receive extra 100% of the Total Premiums Paid. Subject to the Company•s prevailing rules and regulations, the payment(s) of accident death benefit cannot exceed US$1,000,000 / HK$/ MOP7,500,000 in aggregate per life. (calculated in gross over certain products issued by the Company with accident death benefit covering the Insured)

7 Q **What are the death benefit if the owner choose Lump Sum payment or Annual Income Continuity as death benefit payout option?**

A If the Insured passed away during income period, we will pay the death benefit according to owner•s choice during insured•s lifetime. The calculation of the amount of death benefit of different payment options are illustrated in the following example[13]:

Basic Policy: **SPRING INCOME PLAN (3 YEARS PAYMENT INCREASING PAYOUT)**

Name of Life Insured:	SAMPLE	Age/Sex:	40/Female
Monthly Premium:	US$2,119.20		
Annual Premium:	US$24,000	Initial Annual Income@:	US$4,776

17	6,271	2,861	128,002	0	0	128,002	72,000	128,002

Assume the Insured passed away at Year 10:

Lump Sum payment:

The death benefit in the 10th Policy Anniversary

= Unpaid Guaranteed Annual Income + Annual Income[14] accumulation (i.e. Total Income Accumulations) + maturity dividend (non-guaranteed)

= ($5,476+ $5,608 + $5,741 + $5,873 + $6,006 + $6,138 + $6,271) + $50,907 + $5,544

= $97,564

Annual Income Continuity:

At Insured•s death, the Total Income Accumulations will be paid to Beneficiary in lump sum

= $50,907

After Insured•s death, continue to pay unpaid Guaranteed Annual Income and any Annual Dividend annually until the end of Income Period with a total amount

= ($5,476+$1,176) + ($5,608+$1,363) + ($5,741+$1,582) + ($5,873+$1,834) + ($6,006+$2,126) + ($6,138+$2,467) + ($6,271+$2,861)

= $54,522

[13] The above example is based on the current dividend scales and 4.0% non-guaranteed USD accumulation interest rate. Dividend scales and accumulation interest rate are not guaranteed. Actual annual dividends and accumulation interest rate may differ within the policy term, with the values being higher or lower than those illustrated. The above example assumes that no loans are taken throughout the term of the Policy and that all premiums are paid in full when due.

[14] •Annual IncomeŽ consists of Guaranteed Annual Income and non-guaranteed annual dividends.

8 Q **If customer has chosen one death benefit option when application, can he/she change it? When to change?**

A Yes. During the Insured•s lifetime, owner can change the payment option of death benefit. After the acceptance and record of the change, we will follow the choice to arrange the death benefit payout. No modification is accepted after Insured•s death.

9 Q **Will the premium of the Spring Income Plan be any different due to issue age and sex?**

A No. The amount of Guaranteed Annual Income is calculated based on the amount of annual premium chosen by the applicant. Age and sex will not affect the premium amount.

10 Q **Why is maturity dividend reduced to zero at policy maturity?**

A The characteristic of this plan is to provide Guaranteed Annual Income and non-guaranteed Annual Dividend. The amount of income paid will reduce the asset for investment. As a result, Guaranteed Cash Value and Maturity Dividend will be reduced gradually to zero at the policy maturity due to the reducing amount of asset for investment.

11 Q **Is this plan available to PRC customers?**

A Yes.

12 Q **Does this plan allow policy loan?**

A Yes, but only applicable during premium payment period.

保單建議書上的可提取現金金額是你輸入的現金提取金額 (現金提取乃假設於保單年度初作出) 或累積入息總額 (保單建議書上顯示的金額是保單年度完結的累積入息總額)，以較低者為準。

此例子中, 假設你輸入由第 6 個保單年度起，每年現金提取金額為$8,000

i. 於第 9 個保單年度：由於第 8 個保單年度完結時的累積入息總額是$9,368, 所以可於第 9 個保單年度開始時提取所輸入的金額$8,000。

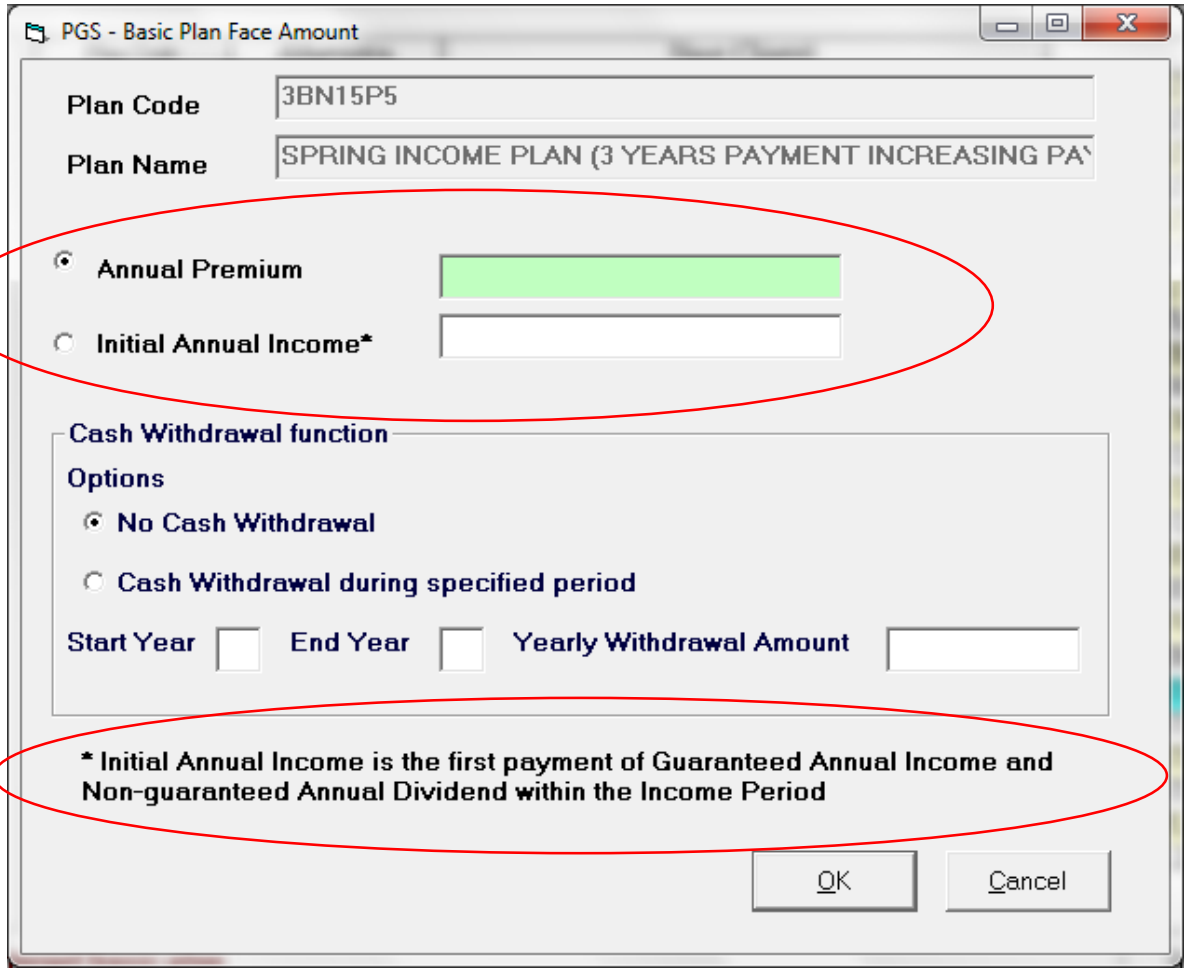

ii. 於第 10 個保單年度：由於第 9 個保單年度完結的累積入息總額只有$7,507, 所以不足夠於第 10 個保單年度開始時提取所輸入的金額$8,000。現金提取舉例會假設提取第 9 個保單年度完結的所有累積入息總額 (即 $7,507) 。相同情況亦於上例中的第 11 至 15 個保單年度出現。

iii. 於第 16 個保單年度：由於第 15 個保單年度完結的累積入息總額是$8,132, 所以可於第 16 個保單年度開始時提取所輸入的金額$8,000。

New Enhancements on the PGS of Spring Income Plan

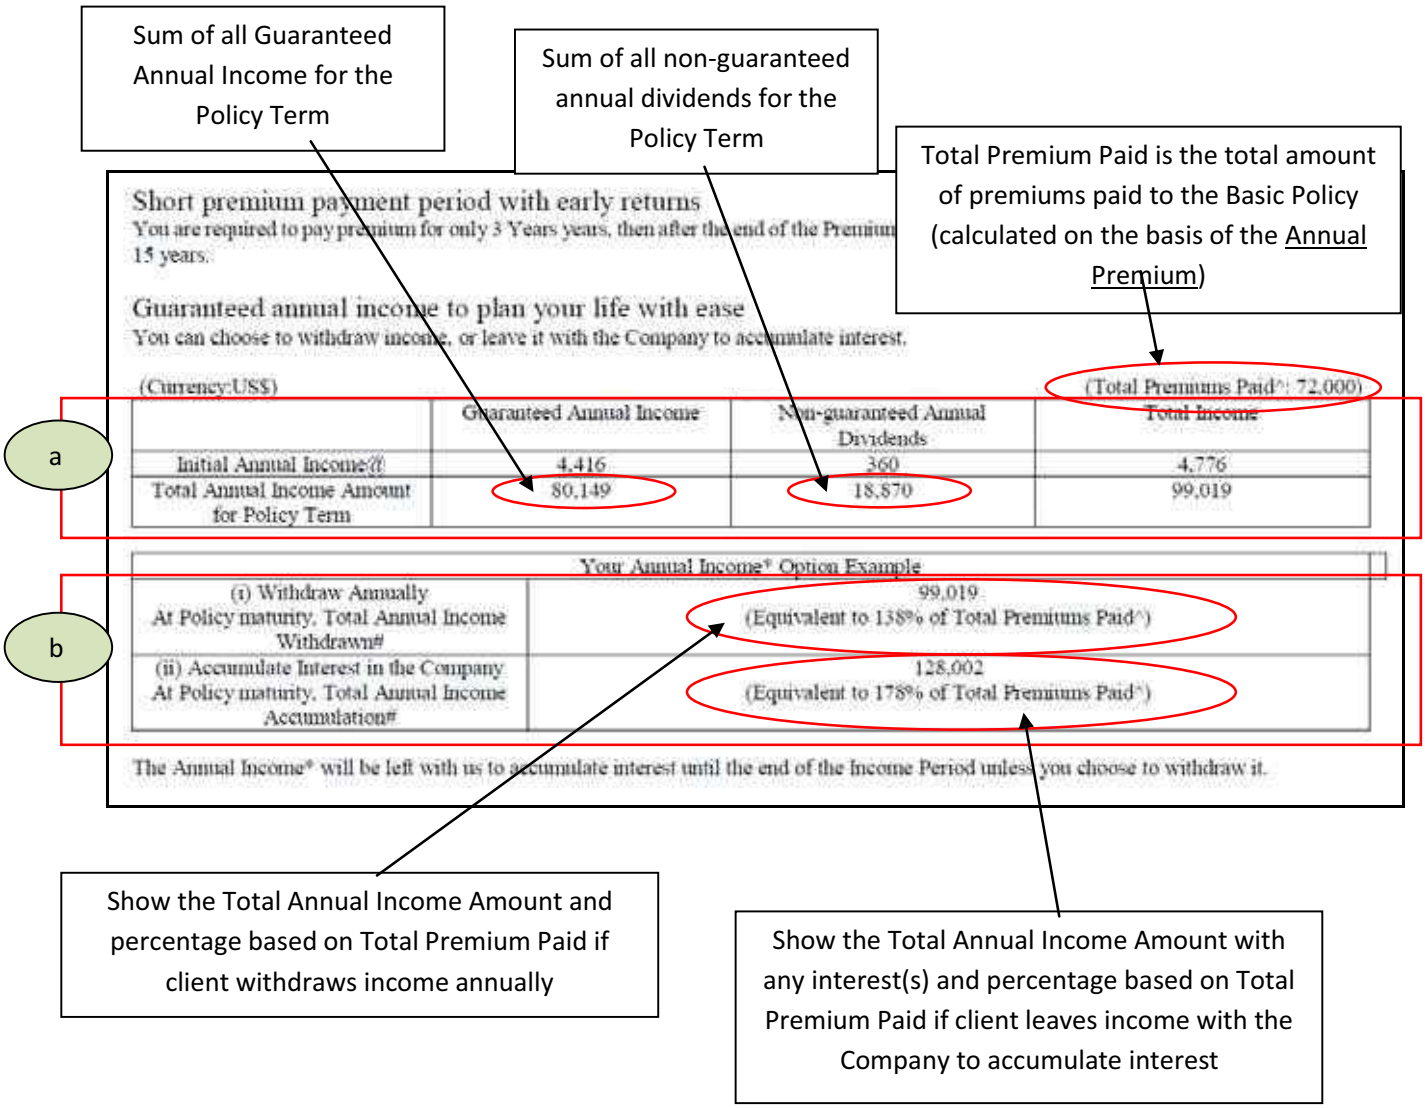

1) You can input either Initial Annual Income or Annual Premium. Initial Annual Income is the first payment of Guaranteed Annual Income and Non-guaranteed Annual Dividend within the Income Period.

2) There are 2 illustrations:

3) On Benefit Highlight page, there is a table showing the summary of Annual Income (i.e. Guaranteed Annual Income and non-guaranteed annual dividends):
   a) Indicate the Total Income Amount for the Policy Term.
   b) Client can choose to either withdraw income or leave it with the Company to accumulate interest.

4) In this plan, Death Benefit (assume lump sum payment) is equivalent to:

(i) Before the commencement of the Income Period
100% of total amount of premiums paid to the Basic Policy (calculated on the basis of the Annual Premium) plus any dividend accumulations; or

(ii) On or after the commencement of the Income Period
Sum of all unpaid Guaranteed Annual Income, from the Policy Anniversary on or immediately following the Insured•s death until end of the Income Period plus any total Annual Income (i.e. Guaranteed Annual Income and non-guaranteed annual dividends) accumulations and any Maturity Dividend.

5) Withdrawal Function

- Withdrawal is allowed in PGS after end of Premium Payment Period and before end of Income Period.
- Withdrawal is assumed to be made at the beginning of the Policy Year and will be deducted from the Total Income Accumulations.
- Request for withdrawal shall be made by request in writing to the Company using the Company's prescribed form.

On PGS of Spring Income Plan, allowable withdrawal amount will be your inputted withdrawal amount (withdrawal is assumed to be made at the beginning of the Policy Year) or Total Income Accumulations (figures shown on PGS will be the balance at the end of the Policy Year), whichever is lower.

In this example, assume you have inputted withdraw $8,000 from the beginning of Policy Year 6,

i. At Policy Year 9: since the balance of Total Income Accumulations at the end of Policy Year 8 is $9,368, withdrawal of $8,000 at the beginning of Policy Year 9 is allowed.

ii. At Policy Year 10: since the balance of Total Income Accumulations at the end of Policy Year 9 is $7,507, withdrawal of $8,000 at the beginning of Policy Year 10 is not allowed. The illustration will assume to withdraw the full balance of Total Income Accumulations at the beginning of Policy Year 9 (i.e. $7,507). The same logic has been applied between Policy Year 11 to 15.

iii. At Policy Year 16: since the balance of Total Income Accumulations at the end of Policy Year 15 is $8,132, withdrawal of $8,000 at the beginning of Policy Year 16 is allowed.
