Memo

Thanks to your support, AIA Assemble has been a great success since its launch on May 2023 (Memo: A230505), where in particular the combo of Life Cover and Cancer Cover is the most popular[1]. This reflects the high demand of customers on customizable critical illness plan.

Professionalism and dedication displayed in the service of our financial planners at frontline have always been the essence when it comes to meeting our customer needs. As your support, we are here striving our best to answer your questions concerning the product. With all recent enquries regarding AIA Assemble consolidated, here we have prepared a product FAQ to better help you understand the details of the product.

Kindly refer to attached appendix for the product FAQ.

Please convey the above message to your fellow agents. Thanks for your attention. If you have any queries, please call our hotline at (852) 3108 1638 (Hong Kong) or visit our Operations Service Center (Macau).

Best regards,

Vanessa Tan

附件:「自在自選」危疾保之產品常見問題

計劃特點	
1.	「自在自選」危疾保總共提供 7 個保障類別。客戶是否可以就此 7 個保障類別任意組合保單保障?
	• 「人壽保障類別」及「癌症保障類別」為必選保障類別。 • 除以上保障類別外，客戶可以任意就「多重癌症保障類別」、「與心臟相關保障類別」、「與神經系統相關保障類別」及「其他疾病保障類別」自主配搭保單保障。 • 全選「人壽保障類別」、「癌症保障類別」、「與心臟相關保障類別」、「與神經系統相關保障類別」及「其他疾病保障類別」後，即自動獲享「末期疾病及不能獨立生活保障類別」。

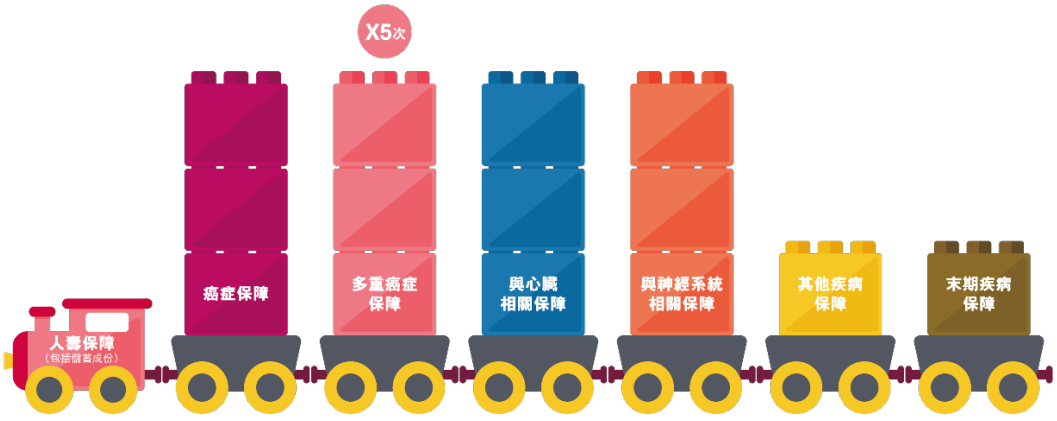

2.	客戶可以就各個保障類別自訂不同原有保額。所有保障類別的原有保額都可以高達「人壽保障類別」原有保額的 300%嗎?

各個保障類別都有不同的最高原有保額限額。

- 就「癌症保障類別」、「多重癌症保障類別」、「與心臟相關保障類別」及「與神經系統相關保障類別」而言，最高原有保額為「人壽保障類別」原有保額的 300%。
- 就「其他疾病保障類別」及「末期疾病及不能獨立生活保障類別」而言，最高原有保額為「人壽保障類別」原有保額的 100%。

詳情請見下表。

保障類別	最低原有保額	最高原有保額
人壽	$ 10,000 美元	$ 1,500,000 美元
癌症	人壽保障類別原有保額的 100%	人壽保障類別原有保額的 300%或 1,500,000 美元，以較低者為準
與心臟相關	$ 10,000 美元	
與神經系統相關		
其他疾病		人壽保障類別原有保額的 100%
多重癌症	原有保額須與癌症保障類別的原有保額相同	
末期疾病及不能獨立生活	原有保額相等於所有所選保障類別原有保額之最低者	

3.	若「癌症保障類別」的原有保額為「人壽保障類別」原有保額的 300%，當保單持有人於保單下就癌症作出首次索償時，他將獲得「人壽保障類別」原有保額的 100%還是 300%?
	當保單持有人於保單下就癌症作出首次索償時（即就癌症索償前，並沒有就任何其他疾病作出索償），我們將支付「癌症保障類別」原有保額的 100%，相等於「人壽保障類別」原有保額的 300%。

4.	為何只就癌症設多重賠償（即「多重癌症保障類別」）?
	本公司於 2023 年 3 月進行了一項有關危疾保障的問卷調查，並發現超過七成半人最關心癌症復發。因此，計劃特設「多重癌症保障類別」以回應客戶最關注的危疾保障。

5.	「多重癌症保障類別」保障原位癌及早期惡性腫瘤嗎?
	並不保障。「多重癌症保障類別」只保障癌症。只有「癌症保障類別」保障原位癌及早期惡性腫瘤。

6.	保單繕發後，保單持有人可以更改保障類別的組合及保額嗎?
	• 保單繕發後，保障類別的組合不能更改，且不可增加原有保額。 • 保單持有人只有在任何索償申請之前，申請減少保障類別的原有保額。所有已選保障類別的原有保額必須按同一比例同時減少，而保額減少後仍需符合最低原有保額的要求。

7.	賠償需符合任何的等候期要求嗎?
	危疾賠償 • 每次危疾賠償索償之間須相隔 1 年等候期。 • 若上一次索償為早期危疾賠償或嚴重兒童疾病賠償，則不設等候期。 早期危疾賠償 / 嚴重兒童疾病賠償 • 每次早期危疾賠償及嚴重兒童疾病賠償索償之間不設等候期。 • 若上一次索償為危疾賠償，則須相隔 1 年等候期。 多重癌症賠償 • 每次癌症索償之間須相隔 3 年等候期。 • 若上一次索償為危疾賠償（除癌症外），是次癌症索償與上一次危疾索償須相隔 1 年的等候期。

8.	各項保障類別的將來應付保費會否按相應保障類別已減少的現時保額調整?
	會。除「多重癌症保障類別」外，各項保障類別將來的應付保費會按相應保障類別已減少的現時保額調整。 • 例如，假設「人壽保障類別」原有保額跟「癌症保障類別」原有保額相同，當保單就原位癌作保單第一次賠償時:

	保障類別的現時保額	保障類別的將來應付保費
癌症保障類別	減少 20%	減少 20%
人壽保障類別	減少 20%	減少 20%
其他已選保障類別	不變	不變

就「多重癌症保障類別」而言，當保單於「癌症保障類別」下就確診癌症支付危疾賠償後，即「癌症保障類別」的現時保額遞減至$0，「多重癌症保障類別」將來的應付保費亦會被豁免。

9.	若「人壽保障類別」的現時保額已因賠償遞減至$0，於受保人身故時，保單還會支付任何賠償嗎?
	雖然「人壽保障類別」的現時保額已因賠償遞減至$0，但此計劃特設身故恩恤賠償，賠償額相等於「人壽保障類別」原有保額的 5%。若受保人於保單期滿前身故，保單仍會支付此賠償，而此金額並不會因任何已支付的賠償而減少。

10.	「自在自選」危疾保的保障年期為多久?
	「自在自選」危疾保提供保障至受保人 100 歲，唯以下除外: • 多重癌症保障類別保障年期至受保人 85 歲; • 不能獨立生活保障年期至受保人 65 歲;及 • 嚴重兒童疾病賠償保障年期至受保人 18 歲以下。

核保相關	
11.	「自在自選」危疾保的核保準則跟「愛伴航」相同嗎?
	「自在自選」危疾保的核保準則會因所選的保障類別組合而有所不同。 • 當客戶投保「人壽保障類別」、「癌症保障類別」及「多重癌症保障類別」以外的保障類別時，核保準則將會跟「愛伴航」相同（即人壽 + 完整危疾核保）。 • 當客戶只投保「人壽保障類別」、「癌症保障類別」及「多重癌症保障類別」時，「人壽保障類別」會以人壽核保準則作核保，而「癌症保障類別」及「多重癌症保障類別」則以癌症核保準則作核保，即與「癌症全方位保障系列」相同。 如果： 1） 客戶投保「人壽保障類別」、「癌症保障類別」及「多重癌症保障類別」以外的保障類別， 2） 而按完整危疾核保後的核保決定為延遲或拒絕受保，及 3） 按人壽及癌症核保準則，客戶可以受保於「人壽保障類別」、「癌症保障類別」及「多重癌症保障類別」（如適用）， 我們將發出一封反建議書（包含已修訂之組合建議）予客戶。

12.	各個保障類別的體檢評級 (MR) 會不同嗎?
	跟其他危疾產品一樣，「自在自選」危疾保設有兩種體檢評級，分別為危疾的體檢評級及人壽的體檢評級。 • 危疾的體檢評級將適用於所有危疾保障類別，「末期疾病及不能獨立生活保障類別」除外。請注意，相同的危疾體檢評級將適用於所有所選危疾保障類別。 • 人壽的體檢評級將只適用於「人壽保障類別」。

13.	客戶曾確診癌症，並已痊癒。該客戶可成功投保「自在自選」危疾保嗎?*
	於最理想的狀況下，我們或會接受投保申請，並添加個別不保事項及/或收取附加保費。最終核保結果仍取決於投保時的整體狀況。 舉例而言，如客戶曾確診乳腺導管原位癌(Tis, N0, M0) 並明顯確認沒有侵入，於手術完成後，我們或會按以下核保決定考慮接受申請： • 「人壽保障類別」：標準評級 • 危疾保障類別：個別不保事項 舉另一例子而言，一名 60 歲男性非吸煙者於 8 年前確診肺癌，當時的主診醫生報告和病理報告顯示肺癌類型為鱗狀細胞癌(T1b, N0, M0)。同年客戶已完成手術及化療，並再無癌症復發。基於以上資料，我們或會按以下核保決定考慮接受申請： • 「人壽保障類別」：標準評級 • 危疾保障類別：附加保費 如以上客戶投保「愛伴航」，核保決定亦將相同。

14.	客戶正患有系統性紅斑狼瘡(SLE)。該客戶可成功投保「自在自選」危疾保嗎?*
	於最理想的狀況下，我們或會接受只有投保「人壽保障類別」及「癌症保障類別」(及「多重癌症保障類別」，如適用)的申請，並收取附加保費。最終核保結果仍取決於投保時的整體狀況。 舉例而言，一名 35 歲女性非吸煙者於 5 年前由風濕病科專科醫生確診系統性紅斑性狼瘡(SLE)，目前正在接受口服非類固醇消炎藥(NSAID)治療，近期沒有住院或有明顯的疾病活動，沒有併發症，沒有涉及腎或腦，症狀輕微僅如臉部蝴蝶斑和關節痛。 基於以上資料，我們或會按以下核保決定考慮接受申請： • 「人壽保障類別」：附加保費 • 「癌症保障類別」(及「多重癌症保障類別」，如適用)：附加保費 如以上客戶投保「愛伴航」，我們會拒絕該投保申請。

15.	客戶為糖尿病患。該客戶可成功投保「自在自選」危疾保嗎? *
	於最理想的狀況下，我們或會以標準保費接受只有投保「人壽保障類別」及「癌症保障類別」(及「多重癌症保障類別」，如適用)的申請；或接受投保包括更多保障類別的申請，並收取附加保費。最終核保結果仍取決於投保時的整體狀況。 舉例而言，一名 55 歲男性非吸煙者於 50 歲時確診糖尿病，目前正在定期覆診並服用二甲雙胍。無高血壓、高脂血症、超重、腎臟疾病等其他心血管疾病。近日體檢顯示空腹血糖 7.5mmol/L，糖化血紅蛋白 8%，微尿分析正常。其餘指數結果理想。 基於以上資料，我們或會按以下核保決定考慮接受申請： • 「人壽保障類別」：標準評級 • 「癌症保障類別」(及「多重癌症保障類別」，如適用)：標準保費 • 如投保其他危疾保障類別，所有危疾保障類別，包括「癌症保障類別」(及「多重癌症保障類別」，如適用)：附加保費

16.	客戶曾被診斷心臟病，並已痊癒。該客戶可成功投保「自在自選」危疾保嗎? *
	於最理想的狀況下，我們或會接受只有投保「人壽保障類別」及「癌症保障類別」(及「多重癌症保障類別」，如適用)的申請，並收取附加保費。最終核保結果仍取決於投保時的整體狀況。 舉例而言，一名 62 歲男性非吸煙者於 1 年前確診心臟病。當時進行的冠狀動脈造影顯示左前降支動脈（dLAD）遠端收縮 90%，左旋支動脈中部（mLCx）收縮 20%。他已在左前降支動脈(dLAD)進行皮穿刺冠狀動脈腔內成形術(PTCA)及支架。除此之外，他亦患有高血壓、高脂血症。 他現在定期覆診心臟病專科醫生，並每天接受藥物治療。所有跟進程序均令人滿意，並且他亦遵從藥物治療。最近的檢查顯示，在體格、血壓、血脂、血糖和心臟功能方面，結果理想。 基於以上資料，我們或會按以下核保決定考慮接受申請： • 「人壽保障類別」：附加保費 • 「癌症保障類別」(及「多重癌症保障類別」，如適用)：標準保費 如以上客戶投保「愛伴航」，我們會拒絕該投保申請。

***** 請注意，所提供的任何例子僅供參考，並不構成可保性或核保決定的保證。實際核保決定將根據每個個案的具體情況而定，包括但不限於擬受保人當時的整體健康狀況。

終期分紅、保單價值相關	
17.	所有保障類別的保額都會影響保單的保證現金價值嗎?
	保單繕發時顯示之保單價值只會根據「人壽保障類別」原有保額而釐定，並不會受任何危疾保障類別的原有保額而影響。

18.	「自在自選」危疾保跟其他分紅危疾產品的紅利理念相同嗎?
	「自在自選」危疾保跟其他分紅危疾產品的紅利理念大致相同。我們會考慮每個因素（包括但不限於投資回報、理賠、退保及支出費用）的過往經驗和未來展望，以釐定保單的終期分紅。 然而，就「自在自選」危疾保而言，客戶可以選擇不同的危疾保障類別，及為不同危疾保障類別及人壽保障類別設定不同的原有保額。因此，即使身故賠償相同，如所選的危疾保障愈大，可分盈餘的可供分配金額之潛在變動幅度（包括正面及負面的變動）則愈大。 詳情請參閱產品小冊子的「重要資料」部份。

19.	保單於何時不再提供保證現金價值及終期分紅?
	保證現金價值及任何終期分紅會因「人壽保障類別」的現時保額而按比例減少。當保單的賠償總額合共達至「人壽保障類別」原有保額的 100%，保證現金價值會遞減至零，而此保單不再提供任何終期分紅。

其他	
20.	抵港/抵澳內地人士需繳付額外附加保費嗎?
	需要。抵港/抵澳內地人士需按國籍評級繳付額外附加保費。

21.	其他危疾計劃可以轉換至「自在自選」危疾保嗎?
	其他危疾計劃都不可以轉換至「自在自選」危疾保。

「我們」、「AIA」、「友邦」或「友邦香港」是指友邦保險（國際）有限公司（於百慕達註冊成立之有限公司）
"We", "AIA" or "AIA Hong Kong" herein refers to AIA International Limited (Incorporated in Bermuda with limited liability)
只供 AIA 內部使用
For AIA Internal Use Only

[AIA - INTERNAL]

Appendix: Product FAQ of AIA Assemble

Product Features	
1.	AIA Assemble has provided 7 Covers in total. Can customers choose any combination of the 7 Covers for their policy?
	• Life Cover and Cancer Cover are compulsory. • On top of these, customers can choose any combination of Multiple Cancer Cover, Heart-related Cover, Nervous System-related Cover and Other Illnesses Cover. • When the Life Cover, Cancer Cover, Heart-related Cover, Nervous System-related Cover and Other Illnesses Cover are selected, the Terminal Illness and Loss of Independent Existence Cover will be added for free.

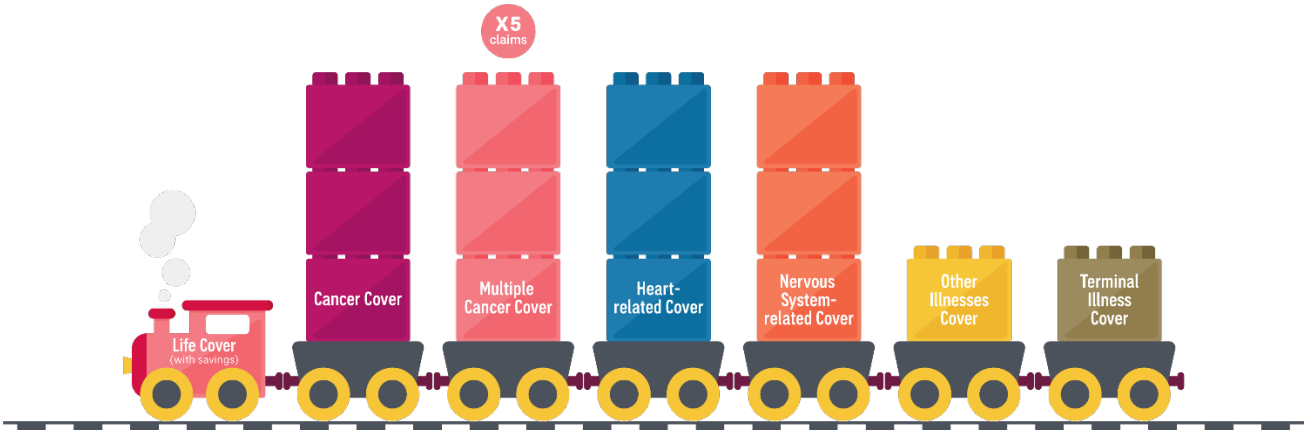

2.	Customers can apply different Initial Sum Assured to each Cover. Can the Initial Sum Assured of all Covers go as high as 300% of the Initial Sum Assured of the Life Cover?

The maximum Initial Sum Assured allowed varies among Covers.

- For Cancer Cover, Multiple Cancer Cover, Heart-related Cover and Nervous System-related Cover, the Intital Sum Assured can be up to 300% of the Initial Sum Assured of the Life Cover.
- For Other Illnesses Cover and Terminal Illness and Loss of Independent Existence Cover, the Initial Sum Assured can be up to 100% of the Initial Sum Assured of the Life Cover.

See the table below for details.

<table>
<tr><th>Cover</th><th>Minimum Initial Sum Assured</th><th>Maximum Initial Sum Assured</th></tr>
<tr><td>Life</td><td>US$ 10,000</td><td>US$ 1,500,000</td></tr>
<tr><td>Cancer</td><td>100% of the Initial Sum Assured of the Life Cover</td><td rowspan="3">300% of the Initial Sum Assured of the Life Cover or US$1,500,000 , whichever is lower</td></tr>
<tr><td>Heart-related</td><td rowspan="3">US$ 10,000</td></tr>
<tr><td>Nervous System-related</td></tr>
<tr><td>Other Illnesses</td><td>100% of the Initial Sum Assured of the Life Cover</td></tr>
<tr><td>Multiple Cancer</td><td colspan="2">The Initial Sum Assured must be the same as the Initial Sum Assured of the Cancer Cover</td></tr>
<tr><td>Terminal Illness and Loss of Independent Existence</td><td colspan="2">The Initial Sum Assured is equivalent to the lowest Initial Sum Assured of all selected Covers</td></tr>
</table>

3.	If the Initial Sum Assured of the Cancer Cover is 300% of the Initial Sum Assured of the Life Cover, in case of a claim for Cancer as the first claim of the policy, will the policyowner get 100% or 300% of the Initial Sum Assured of the Life Cover?
	In case of a claim for Cancer as the first claim of the policy (i.e. No claim had been made before the Cancer claim), we will pay 100% Initial Sum Assured of the Cancer Cover, which is equivalent to 300% Initial Sum Assured of the Life Cover.

4.	Why do we offer multiple claim benefit for Cancer only (i.e. Multiple Cancer Cover)?
	The company conducted a survey on critical illness protection in March 2023, and found that over 75% of people are worried by the recurrence of Cancer the most. Therefore, Multiple Cancer Cover is added to respond to the biggest concern from our customers.

5.	Are Carcinoma-in-situ and Early Stage Malignancy covered under Multiple Cancer Cover?
	No, Multiple Cancer Cover only covers Cancer. Carcinoma-in-situ and Early Stage Malignancy are covered under Cancer Cover only.

6.	Can a policyowner change the combination of Covers, or the sum assured of any Cover after policy issue?
	• After the policy is issued, the combination of Covers cannot be changed and the Initial Sum Assured cannot be increased. • Policyowner can apply for reduction of Initial Sum Assured only before any claim is made for a policy. The Initial Sum Assured of all selected Covers must be reduced all together by the same ratio, and must still meet the minimum Initial Sum Assured requirement after reduction.

7.	What are the waiting period requirements for each benefit?
	Critical Illness Benefit • The waiting period will be 1 year between each claim. • If the last claim was made for an early stage critical illness or severe child disease, no waiting period will be applicable. Early Stage Critical Illness Benefit / Severe Child Disease Benefit • No waiting period will be applicable between an early stage critical illness claim and a severe child disease claim. • If the last claim was made for a critical illness, 1-year waiting period will be applicable. Multiple Cancer Benefit • The waiting period will be 3 years between each cancer claim • If the last claim was made for a critical illness (unless it was made in respect of cancer), 1-year waiting period between this Cancer claim and the previous critical illness claim will also be applicable

8.	Is the future premium payable for each Cover adjusted based on the reduced Current Sum Assured of respective covers?

Yes, except Multiple Cancer Cover, the future premium payable of each Cover is adjusted based on the reduced Current Sum Assured of respective Covers.

- E.g. In the case of a claim for Carcinoma-in-situ as the first claim of a policy, where Inital Sum Assured of the Cancer Cover and the Life Cover are the same:

	Current Sum Assured of the Cover	Future premium payable for the Cover
Cancer Cover	Reduced by 20%	Reduced by 20%
Life Cover	Reduced by 20%	Reduced by 20%
Any other selected Covers	Remain unchanged	Remain unchanged

For Multiple Cancer Cover, once Critical Illness Benefit is paid in respect of Cancer under Cancer Cover, i.e. Current Sum Assured of Cancer Cover is reduced to $0, all the future premium of Multiple Cancer Cover will be waived.

9.	If the Current Sum Assured of the Life Cover has been reduced to $0 due to benefits paid, will the policy still pay any benefit in case of death of the Insured?
	Although the Current Sum Assured of the Life Cover has been reduced to $0 due to benefits paid, this plan is specifically designed to include a Compassionate Death Benefit, which is equivalent to 5% of the Initial Sum Assured of the Life Cover, and payable if the insured passes away before policy maturity. The amount of the Compassionate Death Benefit will not be reduced by any benefits paid.

10.	What is the benefit term of AIA Assemble?
	AIA Assemble provides protection up to age 100 of the Insured, except: • The benefit term of Multiple Cancer Cover is up to age 85 of the Insured; • The benefit term of Loss of Independent Existence is up to age 65 of the Insured; and • Severe Child Disease Benefit is only applicable to Insured who is below age 18.

Underwriting related	
11.	Is the underwriting approach of AIA Assemble same as On Your Side Plan?
	The underwriting approach of AIA Assemble varies with different combinations of Covers. • The underwriting approach will be same as On Your Side Plan (i.e. Life + full Critical Illness underwriting) when any cover is selected on top of Life Cover, Cancer Cover and Multiple Cancer Cover. • When customer selects Life Cover, Cancer Cover and Multiple Cancer Cover only, the Life Cover will be underwritten by the Life underwriting guideline; while the Cancer Cover and Multiple Cancer Cover will be underwritten by the Cancer underwriting guideline, which is same as Cancer Guardian Series. If: 1) the customer selects any Cover on top of Life Cover, Cancer Cover and Multiple Cancer Cover; and 2) the full Critical Illness underwriting decision is to postpone or decline application; and 3) the customer is insurable under Life Cover, Cancer Cover and Multiple Cancer Cover (if applicable) according to Life and Cancer underwriting guidelines, a counter-offer letter containing the revised combination will be issued to the customer.

12.	Will the Medical Rating (MR) vary for each Cover?
	Same as other critical illness products, there are two Medical Ratings for AIA Assemble: CI and Life. • The Medical Rating of CI will be applicable to all Critical Illness Covers, except Terminal Illness and Loss of Independent Existence Cover. Please note that the same Medical Rating will be applicable to all selected Critical Illness Covers. • The Medical Rating of Life will be applicable to Life Cover only.

13.	A customer had been diagnosed with Cancer in the past and already recovered from it. Can the customer be covered by AIA Assemble?*
	Under the most favorable condition, we could accept the application with case-based exclusion(s) and/or premium loading. The final underwriting decision is subject to overall conditions at the application stage. For example, if the customer had been diagnosed with breast ductal carcinoma in situ (Tis, N0, M0) with explicit confirmation of no invasion, and surgery was done, we may consider accepting the application with the following underwriting decisions:. • Life Cover: Standard rating • Critical Illness Covers: Case-based exclusion(s) For another example, a 60 year old male non-smoker had been diagnosed with lung cancer 8 years ago, attending physicial statement and pathology report revealed the type of lung cancer was Squamous cell carcinoma (T1b N0 M0). In the same year, surgery and chemotherapy were completed and there has been no recurrent cancer since then. Based on the above information, we may consider accepting the application with the following underwriting decision: • Life Cover: Standard rating • Critical Illness Covers: Premium loading If the customer applies for On Your Side Plan, the underwriting decision will be the same.

14.	A customer is carrying Systemic Lupus Erythematosus (SLE). Can the customer be covered by AIA Assemble?*
	Under the most favorable condition, we could accept the application for Life Cover and Cancer Cover (and Multiple Cancer Cover, if applicable) only with premium loading. The final underwriting decision is subject to overall conditions at the application stage. For example, a 35 year old female, non-smoker, was diagnosed to have SLE by a rheumatologist 5 years ago She is currently receiving treatment with Non-Steroidal Anti-Inflammatory Drug (NSAID), no recent hospitalization or significant disease activity, no complication and no renal / cerebral involvement, with mild symptoms only such as malar rash and arthralgias. Based on the above information, we may consider accepting the application with the following underwriting decision: • Life Cover: Premium loading • Cancer Cover (and Multiple Cancer Cover, if applicable): Premium loading If the customer applies for On Your Side Plan, we will decline the application.

15.	A customer is a diabetic. Can the customer be covered by AIA Assemble?*
	Under the most favorable condition, we could accept the application for Life Cover and Cancer Cover (and Multiple Cancer Cover, if applicable) only with standard premium, or application for more Covers with premium loading. The final underwriting decision is subject to overall conditions at the application stage. For example, a 55 year old male, non-smoker, was diagnosed to have diabetes at age 50. He is on regular follow-up and on metformin now. No other cardiavascular diseases such as hypertension, hyperlipidaemia, overweight, renal disease, etc. Current medical check-up revealed the fasting blood sugar is 7.5mmol/L and HbA1c is 8%, micro-urinalysis normal. Other indices are all satisfactory. Based on the above information, we may consider accepting the application with the following underwriting decision: • Life Cover: Standard rating • Cancer Cover (and Multiple Cancer Cover, if applicable): Standard rating • With other Critical Illness Covers, all Critical Illness Covers including Cancer Cover (and Multiple Cancer Cover, if applicable): Premium loading

16.	A customer had been diagnosed with Heart Attack in the past and already recovered from it. Can the customer be covered by AIA Assemble?*
	Under the most favorable condition, we could accept the application for Life Cover and Cancer Cover (and Multiple Cancer Cover, if applicable) only with premium loading. The final underwriting decision is subject to overall conditions at the application stage. For example, a 62 year old male, non-smoker, had Heart Attack one year ago. Coronary angiography performed at that time and showed the distal of left anterior descending artery (dLAD) was 90% stenosis and the mid of left circumflex artery (mLCx) was 20% stenosis. Percutaneous transluminal coronary angioplasty (PTCA) with stent was done on the dLAD. Besides, he also has hypertension and hyperlipidaemia. He was on regular follow-up with a cardiologist and on medication daily now.All follow-up are satisfactory and the customer is compliant with their medication. Latest check-up revealed satisfactory results with regards to body build, blood pressure, lipid profile, blood sugar and cardiac function. Based on the above information, we may consider accepting the application with the following underwriting decision: • Life Cover: Premium loading • Cancer Cover (and Multiple Cancer Cover, if applicable): Standard rating If the customer applies for On Your Side Plan, we will decline the application.

* Please note that any examples provided are for reference purpose only and do not constitute a guarantee of insurability or underwriting decision. The actual underwriting decision will be based on the specific details of each individual case, including but not limited to the overall health conditions of the proposed insured at that time.

Terminal Bonus, Policy Value related	
17.	Will the sum assured of all Covers impact the guaranteed cash value of the policy?
	Policy Values shown at policy inception is only determined by the Initial Sum Assured of the Life Cover, but not affected by the Initial Sum Assured of any Critical Illness Covers.

18.	Is the bonus philosophy of AIA Assemble same as other participating critical illness products?
	The bonus philosophy of AIA Assemble is mostly the same as our other participating critical illness products. We will consider both past experience and the future outlook for all the factors including, but not limited to, investment returns, claims, surrenders and expenses to determine the terminal bonus of the policy. Meanwhile, for AIA Assemble policies, where customers can choose from a variety of critical illness covers and assign different Initial Sum Assured to different critical illness covers and the Life Cover. The larger the critical illness benefits, the greater the potential for variation (can be positive or negative) in the amount of divisible surplus available for distribution, even with the same Death Benefit. For details, please refer to “Important Information” in product brochure.

19.	When will the policy stop providing Guaranteed Cash Value and Terminal Bonus?
	Guaranteed Cash Value and any Terminal Bonus will be reduced proportionately based on the Current Sum Assured of the Life Cover. The Guaranteed Cash Value will be reduced to zero once the total benefit paid reached 100% of the Initial Sum Assured of the Life Cover, no Terminal Bonus will be payable thereafter.
